Welcome to Alcona Health Centers. We are honored to be considered for your child's healthcare management. We're committed to providing your child with the best care.

It is our expectation that you'll take responsibility for guiding your child in adapting a healthy lifestyle as that is so important to your child's well-being.

We will be discussing with you some important steps you can encourage with your child to maintain or achieve good health. Your cooperation is vitally important.

It will give our staff and providers great pleasure to work with you on these goals, either through our own expertise, through reading materials that we might give you, or by referral to other health professionals. We want everyone to be involved in our health maintenance program. Everyone who joins our practice should start by having a complete physical exam followed by periodic check-ups that may include health assessments and education.

We are looking forward to working with you as your family healthcare providers. Please contact us whenever you'd like to talk about anything you think may be affecting your child's health. It's our hope that we can have a relationship where the lines of communication are open and communication goes both ways. We will help you remember when your child is due for wellness exams and/or immunizations.

Self-management goals are a series of small steps you can take to help your child work towards achievable health care goals. We will support you and assist you in identifying achievable action steps, when needed.
