ADHD in Teens

Understanding & Managing ADHD

Helping parents and caregivers of teens connect!

Learn strategies for helping your teen succeed through the challenges of ADHD, the most common childhood neurological disorder which often causes serious problems at school and at home. ADHD is known to cause problems with focus, planning, and other executive functioning skills. ADHD is often described as an iceberg, where other problems like depression, anxiety, and defiance are hiding under the surface. The effects of this disorder can profoundly influence life at home for all family members, making the already stressful teen years even more challenging.

Join us for an evening to learn more about ADHD, including strategies for how to help your teen and family better manage ADHD symptoms.

Wednesday, Jan. 17, 2024 ■ 6-8 p.m.

PRESENTERS:

Rebekah Pedersen, LPC, Behavioral Health Therapist,
Alcona Health Center, Petoskey High School

and

Christine Carpenter, LMSW Health Department
of Northwest Michigan

LOCATION:

Petoskey Middle School Media Center

Open to parents, caregivers & community.

On-site child care provided from 6:30-8:30 p.m. If transportation is a barrier, contact Kirstyn at (231) 347-5362. Please RSVP also if child care is needed.
